Polyonics Opens First Office in China

Nov 4, 2003

Polygonics announces, the opening of its first Sales Office in China, marking the second representative office in Asia.

Dr. James Williams, Polygonics' founder and Chairman, said "We are delighted to be able to serve the electronics industry of China with the leading barcode label technology available today. Ms. Jane Miao, our Sales Representative in Shanghai, is very knowledgeable and skillful, and will serve our customers with integrity and excellence"

Polygonics manufactures specialty barcode label materials for marking circuit boards to be used in electronics manufacturing operations.
